# Building Language for Literacy: A Preschool Curriculum that's Building the Foundation for Success in School

Learning to read is the foundation for success in school. That's why The Learning Lamp offers *Building Language for Literacy*, a research-based preschool curriculum that prepares children for

reading success.

With the help of high-quality children's literature, songs, poems, rich vocabulary, and appealing, language-loving characters, children build the skills they'll need to learn to read.

This two-phase curriculum is offered in The Learning Lamp's preschools and child care centers. It allows our certified teachers to tailor instruction to the needs of each child. Targeted skills include oral language, phonological awareness, letter knowledge and concepts of print.

*Building Language for Literacy* helps children expand their awareness of them

selves and their community by using real-world places as the subject matter for learning early literacy skills.

To see our curriculum in action, please call us at (814) 262-0732. We offer preschool and child care in Johnstown, Richland, Westmont, Rockwood, Hyndman and Jennerstown.

To schedule a visit to any of our preschools or child care centers, call us at (814) 262-0732. We'd be glad to show you around!
